GURLAN GLOBAL TEKS

Gurlan Global Teks, we operate a fully integrated textile ecosystem, where every stage of production is unified under one roof.

Quality management is the cornerstone of our culture. We strictly adhere to ***ISO 9001:2019*** *standards, ensuring that every garment leaving our factory meets the highest benchmarks of durability and design.*

We believe that true quality includes ethical responsibility. Our commitment to sustainable and fair production is validated by our rigorous adherence to international certifications, including ***OEKO-TEX, SEDEX.***

Location	*Republic of Uzbekistan, Khorezm Region, Gurlan District, Mustaqillik Street, 5*
Total area	*20,000 m^2*
Number of employees	*1,096*
Sewing line	*16*
Productivity capacity	*6,000,000 pcs / year*

INFRASTRUCTURE

Fully integrated stages: Spinning → Knitting → Dyeing → Sewing → Finished Product

Yarn production

Rieter and Saurer equipment ensures the production of 4,000 tons of yarn, ensuring its high strength and the absence of defects in the finished product.

Dyeing

The capacity of 3,500 tons per year and OEKO-TEX dyes guarantee impeccable color fastness, soft fabrics and complete environmental safety of products.

Fabric production

Production of a wide range of knitwear: from a drawstring to a footer. Our own production allows us to quickly create high-quality canvases to meet any customer's requirements.

Sewing industry

Two modern complexes with a capacity of 6 million products per year operate using the STM system, ensuring impeccable cut and industrial scale of execution.
